Applicable to All students:

1) Students are strongly advised to refer to the Recommended Course Pattern at the Student Handbook and consult your academic advisor on course selection.

2) Students may consult your academic advisor for selection of research postgraduate courses. Applications are made during the course add/drop period by submitting the course add/drop form for postgraduate course. The form is available at the RES website.

3) A course of enrollment below 10 may be cancelled.

4) Students resuming study after exchange and students transferring to the FinTech / SEEM major from other majors are strongly advised to submit your credit transfer/course exemption applications, if any, AS EARLY AS POSSIBLE so as to better facilitate your course selection plan in your remaining study period.

5) ENGG1410 Linear Algebra & Vector Calculus for Engineers was the Faculty Package requirements for students admitted to CUHK 2018-19 and before. The course will not be offered. Concerned students who have not fulfilled the requirements for graduation are required to complete and apply for the follow course substitution. The course substitution form is available at the RES website.
